

# FULL Tank

## A SUPPLEMENT FOR SHOW ANIMALS

SUNGLO FEEDS

- FULL Tank** is a nutritional product designed to increase the capacity of the stomach or rumen.
- FULL Tank** is also useful when intake is restricted to limit weight gain. When limit-feeding, Adding **FULL Tank** maintains “gut fill” and keeps the fresh, expanded look.
- FULL Tank** also reduces the stress level and hard look associated with a low feed intake.
- FULL Tank** contains a probiotic to aid digestive function.

**FULL TANK** is pelleted and works best when fed dry. It expands more than beet pulp and will retain more water than beet pulp. It may be added to cattle feeds as a replacement for beet pulp.

Feed the desired show feed to achieve the gain you need.

Add **FULL TANK** at the level animals will clean up.

#### Normal use:

½ - 2 lbs/head/day for pigs, sheep and goats

2 - 5 lbs./head/day for cattle

#### USAGE DIRECTIONS

Mix with complete show feeds for animals (cattle, sheep, goats and swine) that are being held or need additional gut fill.

#### GUARANTEED ANALYSIS

Crude Protein.....Min.....	9.00%
Lysine.....Min.....	0.54%
Crude Fat.....Min.....	0.50%
Crude Fiber.....Max.....	27.30%
Calcium (Ca).....Min. 0.55% Max.....	1.05%
